SOLVING IMMIGRATION

The Truth Is Out There

The two biggest political problems in America today are the war in Iraq and illegal immigration.

The upcoming 2008 Presidential election will shape these issues for years to come.

How much do you know about illegal immigration?

There are over 11 million people living in the US illegally today. The majority comes from Latin America countries and few have high school educations.

Do they drain our schools, our hospitals, our prisons and our culture? Or are they the backbone of our labor force?

Every day, over 10,000 people risk their lives on a 3-day trek enduring blazing heat by day and freez-

ing cold at night. Over 10,000 people have died crossing our border since 1996. The US Border Patrol is hampered by budget cuts and is only able to stop 25% of the cross border flow.

Prison gangs operate multi-million dollar drug trafficking operations across our borders and Mexican border towns are filled with deported felons waiting to sneak back into America.

Honest and hard working Latinos build our houses, clean our hotel rooms, pick our produce and flip our burgers.

They need us and we need them.

What is being done to address this huge issue?

Political activists on both sides make the problem

worse by their own fear, radical ideas, immature behavior and intimidation. Neither side is actively working together to find a common solution.

Is there a workable solution to this issue?

Multi-award winning filmmaker and Smithsonian inductee, Mike Shiley, is one of America's top experts on uncovering and solving the biggest political problems that face our world today.

Hundreds of TV, radio, web and print media outlets have profiled Shiley as one of the few political experts that can cut through the mindless Left vs. Right polarization of American politics.

Mike Shiley has spoken and presented his solution to the war in Iraq at colleges and performing arts centers over 450 times in the last five years.

WHAT THE SCHOOLS ARE SAYING

Mike's program was great, I thought it was very unique and informative. I also like Mike as a person.

— Travis Merle, Elmhurst College

The show went great. The audience enjoyed his presentation and there was a large amount of people who stayed to discuss issues further with him. Thank you...

— Alexi Poulianos, University of Hartford

I wanted to thank you for your awesome performance last night. It was received very well, and you without a doubt got your message across to students and faculty alike here on campus. It was so nice to meet you, and hear your stories and your point of view. Your down to earth personality gives me hope that there are people in the world who can and will make a difference.

— Christine Spindler, Southern New Hampshire University

Things went great! We had a great response from the students and had a great turnout. We had several people from the community come to the showing as well and we have gotten several responses thanking us for bringing Mike.

— Jeana Schow, Oklahoma Christian University

The program was fantastic, and is receiving some of the best reviews of any program at Eastern in the last few years. It was tremendous, attendance was significant, and the event has created quite a buzz.

— David Fifer, Eastern Kentucky University

Mike's program was VERY well received. We had around 125 students and a few townspeople in attendance and they all stayed through the movie and the discussion afterwards. Mike really connected with the students — one of them had served in Iraq and agreed with Mike as conveying with his film and with his comments.

— Don Heins, Young Harris College

Mike Shiley was great! He had a terrific presentation about his movie and was more than willing to stick around for an impromptu Q&A session after the show. He was so engaged with the students that we literally had to drag him out of the auditorium so that we could get him back to his hotel at a decent hour!

— Paul Spangle, Minnesota State University, Mankato

I was struck by your passion, your conviction, and your willingness to confront the concept of war head on and without reservation. I hope you will continue to explore projects that will serve to educate and encourage and that the images you capture will enable people to see differently and with a more critical and insightful eye.

— Kristin Hutson, Coe College, Iowa
