## GIVE A DAMN?

### Dan Parris, Rob Lehr, David Peterka

Three young men looking for meaning in their lives, set out to examine the injustice of poverty in the world. Living on a \$1.25 per day, they travelled through 3 continents. The adventure turned disastrous when two of them survived a deadly plane crash in Africa and all three fought to finish what they started.

Dan, David and Rob will make the case that this generation can have a profound impact on the issues that break their heart. Using personal stories, humor and facts, your audience will be engaged by their mission to "connect those who need something to live for, with those who just need something to live." They engage the audience around the idea of turning apathy into action, focusing on what issues can inspire a passion for change.
